

SEALEZE® Brush Solutions

Providing the highest quality products and services.

SEALEZE® provides brush-based solutions for a variety of applications.

For more than a quarter of a century, SEALEZE® brush products have reduced costs in manufacturing processes and improved the performance of our customers' products. Our focus on problem solving goes beyond our products and encompasses everything we do. With a talented team of experts and durable American-made products, SEALEZE® gets the job done every time.

PERFORMANCE

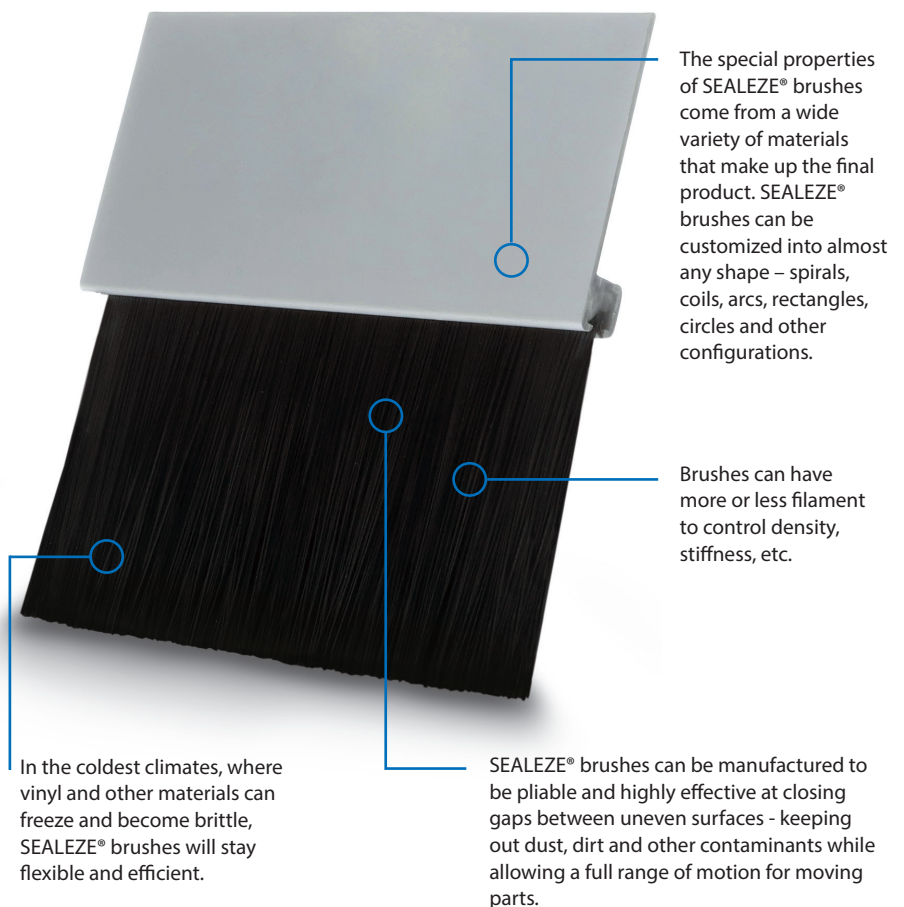

- Testing proves SEALEZE® brushes help eliminate 98.5% air infiltration.
- SEALEZE® is the innovator in brush solutions.
- We provide brush solutions for a wide range of applications and industries.

DURABILITY

- Testing shows that Therm-Brush will stand up to 2,000,000 cycles.
- Vertically integrated factory allows for fast and error free delivery.
- UL approved for use on 3-hour fire doors.

SIMPLICITY

- Easy to install and mount with pre-drilled holes and fasteners.
- Simple ordering process. Easy to choose the right parts.
- Best-in-class customer service, there when you need us!

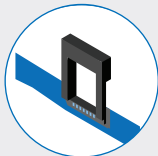

Building Envelope

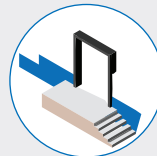

At SEALEZE®, we pride ourselves on our problem-solving approach. Our building envelope products are designed to improve comfort and safety, reduce pest problems and improve thermal efficiency, providing a 1-5 month ROI!
