§ Exposed filament from bottom of integrated holder (filament length)

### Specifications

- **Annual Usage (total feet):** _______
- **Product Code:** _____________
- **Filaments**
  - **C Channel (level only):** _______
    - (0.004 in to 0.016 in)
  - **D Channel (level or crimped):** _______
    - (0.004 in to 0.020 in)
- **Channel material**: Nylon
- **Filament Diameter:** __________
- **Quantity:** __________
- **Cut length if less than 100 ft:** _______
- **Application:** __________

* Integrated holder and filament must be of the same material.

---

**Due to the nature of extruded plastic materials, please note the dimensional tolerances and take these into consideration when incorporating these products into your design.**

Ez-Flex is available with other filament diameters. Please ask your sales representative for details. Standard brush material is Nylon (code BL). Crimped filament is available on D section. Ez-Flex flexible strip brush can be provided in continuous lengths in rolls (typically 30.5 m) or as individual strips cut to your specifications.
