CB33

Application

Sized specifically for small cutouts (4 or 6 inches in diameter) the CB33 circular grommet is designed for installation in new or existing data centers prior to cable installation.

Description

The CB33 circular surface-mount cable seal consists of a single spiral brush made of nylon and a fixed-ring holder. The shape of the brush provides an intrinsically more efficient seal because it completely surrounds the cables reducing leakage of pressurized air.

Other CoolBalance sealing solutions are available. (See reverse for complete list.) Contact your Sales Representative for more information or visit our website at coolbalance.biz.

Installation

Prior to running cable, place the CoolBalance CB33 over the cutout and affix with screws (provided) or double-sided tape (not provided). The seal is ready for cable installation.

Construction:

Black ABS plastic and nylon brush\

Hole Sizes:

4.75 inch diameter

6.75 inch diameter

Tile Cutout Specifications:

Small: 4.75 inches or smaller

Large: 6.75 inches or smaller

Model Number Construction CB33

Model	Maximum Hole Diameter (inches)	Construction
CB33-04	4.75 or less	Single-piece, surface mount
CB33-06	6.75 or less	Single-piece, surface mount

CoolBalance® Brush Seal Solutions for Computer Facilities

The CoolBalance Line of Sealing Options

- CB10 In-floor seal– standard, fixed size 6-3/4 x 9-1/4 inches
- CB11 In-floor seal– customizable, for hole sizes 5 x 5 to 10 x 24 inches
- CB11E In-floor seal– customizable, for hole sizes 5 x 5 to 10 x 24 inches
- CB11H In-floor seal– customizable, for hole sizes 5 x 5 to 10 x 24 inches
- CB22 Surface-mount seal– customizable, for hole sizes 5 x 5 to 10 x 24 inches
- CB33 Circular seal– for holes with diameters of 4 or 6 inches
- CB33EP Circular seal with edge protection– for holes with diameters of 4 or 6 inches
- CB33S Circular seal with split ring (for installing around pre-existing cables)– for holes with diameters of 4 or 6 inches
- CB44P Through-wall seal– fixed size 6 x 9-1/2 inches
- CB55 Circular through-wall seal– for holes with diameters of 4-1/2 or 6-3/4 inches

Sealeze's reputation is built on rapid quotations, short design and manufacturing lead times, knowledgeable sales representatives and customer service.

Sealeze is the industry leader providing brush-based solutions for industrial, weatherseal and pest control applications. We manufacture brush products that provide simple and cost-effective options to seal, shield, guide, position, dissipate static, and close gaps. Sealeze brushes can be found on a range of equipment and vehicles from machine tools and conveyors to trains and aircraft.

Sealeze's high customer satisfaction is supported by our ISO 9001, Kaizen, and Lean TPM programs.
